

KEY STEPS

- 1** Connections south along designated paths consistent with Sydney Green Grid and subject to negotiation with golf clubs.
- 2** Provision of pump track, utilising the existing hill and activating the otherwise underutilised portion of the park.
- 3** Provision of a junior pump track, complete with shelters, bbq and shade trees.
- 4** Lookout point and meandering path to take advantage of high point and to promote spectator use for views over the Botany Wetlands, pump track and sports fields. Limit the planting of trees to promote views in all directions.
- 5** Widen existing footpath to accommodate shared path use. Incorporate additional trees to cast shade where suitable.
- 6** Enhance the existing tree line along Astrolabe Road / Issac Smith Street to reinforce the existing canopy. Underprune and remove shrubs to ensure clear sightlines and to meet CPTED requirements.
- 7** Outdoor fitness equipment positions close to circuit loop.
- 8** Playground integrated amongst existing canopy located close to existing toilet amenities and proposed shelters and bbq facilities.
- 9** Proposed 1x Basketball court, with space available for up to 3x additional courts if warranted.
- 10** Lookout point and take advantage of high point and to promote spectator use for views sports fields. Include deciduous feature trees to serve as landmark for park.
- 11** Opportunity to improve existing lookout with interpretive signage.
- 12** Level area for informal active and passive recreation.
- 13** Dog exercise circuit & owner seating area
- 14** Expand the existing carpark, incorporating adequate vehicle turning loop and appropriate accessible parking spaces while maximising existing tree retention and incorporating water sensitive urban design principles.
- 15** Provide a continuous path circuit and exercise loops for safer pedestrian movement adjacent to the existing road.
